DOCUMENT-IDENTIFIER: US 4297382 A

**** See image for Certificate of Correction ****TITLE: Process for drying compositions containing derived protein-containing
_compositions and additivesBrief Summary Text (57):

If the starch tends to gel at higher temperatures, the drying must be accomplished under low temperature conditions to avoid gelation of the starch. Air drying, vaccum drying or freeze drying can be used. Other dryers such as drum dryers can also be used depending on the characteristics of the starch utilized.
